1:50,000 TOPO MAPS

Each 1:250,000 sheet contains sixteen 1:50,000 sheets which are numbered from 1 to 16 as shown in square 39 D below.
Maps on 1" to 1-mile scale are generally available for areas not yet mapped on 1:50,000 scale.

1	8	9	16
2	6	10	14
3	7	11	15
4	5	12	13

These maps are referred to by the combination of letter and figure opposite to these near the border with the letter N as a prefix to indicate that these maps lie to the north of the equator. For example the map in which Delhi falls is NH-43.
