Abstract: Under the Agricultural Marketing Act of 1946, as amended (7 U.S.C. 1621-1627), the Poultry Market News and Analysis Branch provides up-

to-the-minute nationwide coverage of prices, supply, demand, trends, movement, and other pertinent information affecting the trading of poultry and eggs, and their respective products. The market reports compiled and disseminated by Market News provide current, unbiased, factual information to all members of the Nation's agricultural industry, from farm to retailer. These market reports assist producers, processors, wholesalers, retailers, and others in making informed production, purchasing, and sales decisions and promote orderly marketing by placing buyers and sellers on a more equal negotiating basis.

Market news reporters communicate with buyers and sellers of egg and poultry commodities on a daily basis in order to accomplish the Program's mission. This communication and information gathering is accomplished through the use of telephone conversations, facsimile transmissions, and electronic mail messages. Market News uses one OMB approved form, PY-90: Monthly Dried Egg Solids Stocks Report, to collect inventory information from commercial dried egg products plants throughout the U.S. Cooperating firms voluntarily submit this form to Market News primarily via electronic mail and facsimile transmissions.

Respondents: Producers, processors, brokers, distributors, retailers and commercial dried egg products plants.

Estimated Number of Respondents: 1,743.

Estimated Total Annual Responses: 216,858.
