Our 2011 babies have started "hitting the ground" and will continue through April 2011. Visit the website [billsboers.com](http://billsboers.com) to see the latest pictures of the babies and their sires: **Ratshot**, **Silverado**, and **Homerun**. Many of our wethers and does performed at the top of their classes during the past show season, and we expect an even better show season this year! Call, surf the website, and come visit us for more information!
