Number of Correct Products	_____ x 3 = _____
<b>Total</b>	_____

**Scoring**  
 4 Points Correct Diameter  
 2 Points Diameter +/- 1"  
 3 Points Correct Height  
 2 Points Height +/- 5'  
 3 Points Correct Product

Pulpwood Minimum 6" dbh  
 Chip-N-Saw Minimum 9" dbh to 12" dbh maximum with at least 1 1/2 clear logs (24 feet)  
 Sawtimber Minimum 13" dbh with at least 1 1/2 clear logs (24 feet)  
 Any tree from which 1 1/2 clear logs or 24 feet of clear logs cannot be cut from any portion of the tree will be classified as pulpwood.  
 "Clear" is defined as being free of deforming limbs, forks, major sweeps and cankers.
