

Georgia FFA Association

NURSERY/LANDSCAPE - SENIOR CDE

I. OVERVIEW

The Nursery/Landscape Career Development Event tests participant knowledge and skills in various aspects of the industry. The team event includes identification of plant materials and disorders, as well as a hands-on problem solving and written exam involving the production, design, installation and maintenance of landscape plants, related products, equipment and services.

II. PURPOSE

To stimulate career interest, encourage proficiency development, and recognize excellence in students of nursery practices and landscaping through the agricultural education curriculum.

III. ELIGIBILITY

This event is open to students in grades 9-12 who are agricultural education students, and are paid members of a chartered FFA chapter. Each member of the team must be a member of the chapter registering them, and each student's name must appear on the chapter's FFA roster at least 10 days prior to competition above the chapter level.

There is a national competition; no student who is a member of another state winning team may compete and no member of the state winning nursery/landscape team is eligible to compete in another CDE until after the national competition.

IV. SPECIAL NEEDS REQUEST

To report any special needs or request special services for a student to compete in a Career Development Event or FFA Award area (Area or State level), it is the responsibility of the FFA advisor to provide a detailed and specific request and explanation in writing. Requests should include written documentation from the school system verifying the IEP and need being requested. Written requests must be submitted to the CDE Superintendent prior to registering for the CDE/event (at least 3 weeks prior to the date of competition.)

V. RULES

1. Each Chapter may enter one team at the area competition. **Team Make-up:** A team representing a chapter will consist of three or four members. With a four-member team, the top three individual scores will be added to determine the team score.
2. Under no circumstances will any participant be allowed to touch or handle plant materials or other specimens during the event.
3. It is highly recommended that participants be in official FFA dress during the event.
4. Neither coaches nor teachers may enter the competition area until the event superintendent announces the end of the event and areas are open to be reviewed.
5. Each participant must have the following tools: clean clipboard, 2 pencils, engineer's scale and architect's scale, hands lens, and a non-programmable calculator.
6. This event will follow the general procedures established for all Georgia FFA career development events.
7. The State FFA Executive Committee and their appointees will be in charge of this event.
8. The top two teams from each area will advance on to state competition.

Georgia FFA Association NURSERY/LANDSCAPE - SENIOR CDE

VI. EVENT FORMAT

The career development event will be conducted in FIVE PHASES as follows:

| Phase | Points |
|---|------------|
| Identification of Plant Materials, Equipment and Supplies: Twenty-five items from the Georgia Nursery/Landscape List will be displayed for contestants to identify. Ten points will be awarded for each correct answer, and participants have 25 minutes to complete this event phase. | 250 |
| General Knowledge: The general knowledge section will consist of twenty-five questions covering all areas of the nursery/landscape industry. Ten points will be awarded for each correct answer, and participants have 25 minutes to complete this event phase. | 250 |
| Problem Solving: This phase will consist of five questions. Twenty points will be awarded for each correct answer. Participants have 20 minutes to complete this event phase. The problem solving questions will come from these designated areas. <ol style="list-style-type: none">1. Media Volume2. Area and Volume3. Chemical and Fertilization4. Irrigation5. Pricing | 100 |
| Disorder Identification: Contestants will be required to identify plant disorders including diseases, insects, weeds, and nutritional disorders and specify, if requested, those pesticides or other treatments necessary to remedy the problem. Items for this phase of the career development event will be selected from the Disorder List. Ten points will be awarded for each correct answer, and participants have 20 minutes to complete this event phase. | 100 |
| Landscape Practicum: The practicum is designed to evaluate participant knowledge of and ability in 1) evaluating a landscape design, 2) reading a landscape drawing, 3) measuring and calculating materials needed to execute a landscape plan, and 4) evaluating factors that affect profitability of a landscape business. Contestants will answer ten multiple-choice questions about a landscape drawing, and each correct answer has a value of 10 points. Participants have 20 minutes to complete this event phase. | 100 |
| Total Points Per Individual | 800 |

Georgia FFA Association

NURSERY/LANDSCAPE - SENIOR CDE

VII. SCORING

Participant scores are the sum of the five phases of the event and team scores are the sum of the three highest member scores.

Possible points are as follows:

| Phase | Member | Team |
|-----------------------------------|--------|------|
| Identification of Plant Materials | 250 | 750 |
| General Knowledge | 250 | 750 |
| Problem Solving | 100 | 300 |
| Disorder Identification | 100 | 300 |
| Landscape Practicum | 100 | 300 |
| Total | 800 | 2400 |

VIII. TIE BREAKERS

In the case of tie, individual or team total scores will determine the final placing by comparing, in order, scores for the following:

1. Written Exam
2. Plant Identification
3. Landscape Practicum
4. Disorders
5. Problem Solving

IX. AWARDS

Awards shall be determined each year by the Board of Trustees of the Georgia FFA Foundation. This event is made possible through the Georgia FFA Foundation as a special project of an industry sponsor or from the Foundation general fund. Minimum awards will recognize the first place individual in each area, and the first and second individuals at the state level.
