

**SHOOT FOR
BLUE**

**AIM FOR
GOLD**

FFA is a national organization of over 610,000 students in all 50 states, Puerto Rico and the U.S. Virgin Islands. FFA members are preparing for careers in the business, science, technology and leadership fields of agriculture. The FFA mission is to make a positive difference in the lives of students by developing their potential for premier leadership, personal growth and career success through agricultural education. FFA builds today's youth into tomorrow's leaders. FFA promotes leadership skills, a strong work ethic, honesty, integrity, and technical and practical skills. The students you invest in today are future entrepreneurs, employees, consumers, policy makers and leaders.

Proceeds from the Shoot for Blue, Aim for Gold Sporting Clays Tournament will be used to send FFA members to represent their home state at national competitions during the National FFA Convention in October in Louisville, Kentucky.

Georgia FFA
