

COVID-19 GUIDELINES AND RULEBOOK

COVID-19 OVERVIEW

The GNFA has developed a comprehensive set of COVID-19 Ground Rules and Safety Guidelines to return to Livestock, Equine and Commercial Events in a safe manner. The Ground Rules and Safety Guidelines are established to embrace the health and safety of all members in preserving the spirit and legacy of the event.

The health and safety of our members, employees, fans and communities-both the City of Perry and your home community- has been the GNFA focus since the pandemic began and will remain so as we return to competition in a responsible manner.

We ask for your assistance in familiarizing yourself with the GNFA COVID-19 Guidelines and CDC recommendations regarding the prevention of COVID-19.

HEALTH & MEDICAL SCREENING

If medical authorities have concerns at any time about an individual's suitability to participate, that person may be denied access to the event until cleared by their physician. In consultation with GNFA & medical experts, the GNFA may include testing as an element of the medical screening process.

Certain populations may be at increased personal risk regarding COVID-19. Please review the [CDC definition of "People Who Are at Higher Risk of Severe Illness,"](#) e.g. people over 65, and people with existing underlying medical conditions such as: chronic lung disease, moderate to severe asthma, severe heart disease, immunocompromised, chronic kidney disease, liver disease, severe obesity, diabetes, etc.

GNFA recommends that participants who meet the CDC definition of "People Who Are at Higher Risk of Severe Illness," not participate in the event. If you are unsure if you meet the CDC definitions, please consult with your physician.

Participants concerned for their own health should consult with their physician prior to participation in the event.

Exhibitors or staff should be symptom and fever free for a minimum of 72 hours before the event day. Individuals with a confirmed COVID-19 infection, with known exposure to a confirmed COVID-19 case in the last 14 days, exhibiting physical symptoms of COVID-19 or experiencing a fever should not participate and consult with their physician.

If members are experiencing COVID-19 type symptoms, please do not participate and do not travel to the event. Seek medical attention and be tested. • CDC COVID-19 Symptoms, [click here](#).

- If in the last 24 hours, the person has had: Cough; Shortness of Breath; Difficulty Breathing
- If they have had two (2) of these symptoms: Fever; Chills; Repeated Shaking with Chills; Muscle Pain; Headache; Sore Throat; New Loss of Taste or Smell

It is important to maintain social distancing and health requirements for the protection all parties involved.

SOCIAL DISTANCING & COMPARTMENTALIZING

Livestock and Equine Events present unique situations where different groups are interacting and cross functioning from one end of the arena to the other. It is recommended to compartmentalize committees' personnel functions into cells of 10 or fewer people to avoid an outbreak that could jeopardize the event. All compartmentalized teams should limit their interactions with other groups and follow social distancing guidelines. It is highly recommended to wear Personal Protective Equipment. It is important to manage how riding and timed events are conducted and managing the entry and exit of contestants during all Classes.

- Show Committee personnel, Contract Personnel, Judges, and Contestants should operate in functional cells, keeping working spaces separated and limiting contact with others minimally.
- Show Committees should mark the show grounds in both ends of the arena to properly social distance contestant areas.
- Personnel should minimize direct contact with each other during the event via two-way radios and/or cell phones.

If a participant develops symptoms during the event day, medical resources inside the facility will be prepared to isolate that individual and a disinfecting and decontaminating response will be implemented to ensure vehicles, equipment and venue areas are quickly cleaned. In accordance with state, county and local mandates, notify public health officials immediately.
