Scientist (m/f/d)

Institute for Strategies and Technology Assessment – Location Kleinmachnow

Application Deadline: 16 May 2023 for the reference number: KM-SF-WA-14-23

The Julius Kühn Institute (JKI) is participating in the German government's 2022 climate protection program (Klimaschutzsofortprogramm 2022). Through a series of climate protection projects, the JKI will contribute to achieving the goals set in the climate protection program of the federal government over the next years.

The project

In the project **KlimAF – Evaluate and effectively utilize Climate Change Mitigation Potentials of Agroforestry**, five JKI institutes work together on relevant climate change mitigation challenges of agroforestry, on closing corresponding knowledge gaps and on the development of decision support systems for climate-efficient agroforestry systems. At the Institute for Strategies and Technology Assessment (SF), a web-based decision support system for the field-specific assessment of the production and the climate change mitigation potential of various agroforestry systems is being developed in the sub-project AgroForPraxis.

Your tasks

- development of a shading and microclimate model to map the effects of wooded strips and hedges on radiation, temperature, air and soil moisture in adjacent cropland;
- classify, catalog and parameterize growth and carbon storage of various wooded strips and hedges;
- support the implementation of the microclimate model into a process-based agroecosystem model and the development of the corresponding web applications;
- Greenhouse Gas (GHG) accounting taking into account the material and energetic inputs and outputs in agroforestry systems;
- Germany-wide assessment of the GHG reduction potential through large-scale implementation of agroforestry systems;
- close collaboration with the project partners in KlimAF (scientists, web developers and technical assistants) and our international team of developers and scientists in a friendly working atmosphere;
- Preparation of reports and presentation of project results and scientific publications in national and international journals.

You have

- a university degree (Masters/Diploma) in the field of environment, geography, geoinformatics, environmental informatics, environmental physics or a comparable discipline, preferably with a PhD;
- good knowledge and experience in the development of models in the field of forestry and/or agricultural meteorology;
- preferably experience in statistical data analysis and mathematical modeling;
- knowledge of working with larger data sets (e.g. environmental cadastre, soil data, climate data) and programming skills (e.g. R, Python);
- interest in environmental science related research issues;
- very good communication and organizational skills, flexibility and ability to work in a team;
- fluency in English and/or German language, both written and spoken.

Lebensgrundlagen für morgen sichern

We offer

- a diversified, challenging and interesting job in a goal- and solution-oriented working environment at the JKI, as well as working in a project team at the JKI;
- a full-time position limited to 31 May 2026 with 39.0 hours per week per week on a third party funded project, subject to the availability of budget funds and final project approval. Generally, various forms of part-time employment are possible. The employment relationship is based on the collective agreement for the public sector East (TVöD-Ost).
- a remuneration according to salary group E 13;
- starting Date: 1 July 2023.

The JKI site in Kleinmachnow can be reached easily from Berlin and Potsdam and is very well connected to public transport ("Julius Kühn-Institut" stop, 8 minutes from Berlin-Wannsee S-Bahn station).

Upon employment, an allowance for the public transport Deutschland-Ticket Job of a maximum of 23,28 euros per month is available.

We guarantee professional equality. The Julius Kühn Institute is committed to inclusion. Applications from people with severe disabilities are therefore expressly encouraged. These will be given priority in the selection process. The JKI supports the compatibility of work and family and has held the [audit berufundfamilie](#) certificate since 2021. In order to support the compatibility of work and family, the JKI offers flexible working time models within the scope of the official possibilities. More information can be found [here](#).
